

An extended range of components are available for those wishing to mount equipment within their own enclosures.

- Isolators 
- Fuse Combination Units
- Changeover Isolators
- 32A - 1250A
- IP41/IP65

## Switch Disconnectors

# A feature filled range of Isolation Equipment 32A-1250A

The 'i-switch' range includes:-

- Switch Disconnectors (Isolators).
- Fuse Combination units.
- Changeover Switch Disconnectors
- IP41 & IP65 enclosure options.
- No need for extension boxes with generous cabling room throughout.
- New 'safety' features.
- Sheet steel or Stainless option.
- Full range of accessories.

Typical switch disconnector exhibiting some of the design features shown in detail below.

Changeover Isolators are supplied fitted with 'piggy back' style interior switches giving more room for cable connections.

Fuse Combination Units are supplied fitted with a set of three fully rated fuse links.

## D E S I G N F E A T U R E S

Individual terminal shields that follow the displacement of the connecting cables.

Earth bonding between lid & enclosure base

Removable gland plates fitted to top & bottom of enclosure.

Door interlock handles with multi-padlock capacity & interlock override facility for test/emergency use.

Positive contact indication through windows in switch body.
