## Railtex 2011 - Success for C&D

The UK rail industry met at Earls court in London for the highly acclaimed Railtex exhibition. The exhibition took place from the 14th to the 16th June 2011 and attracted over 9000 visitors over the 3 day event. Craig & Derricott has been a component supplier to the Transport Industry for

Illuminated pushbuttons used for M-Door applications

more than 40 years and in that time has earned a reputation for well engineered products with the ultimate in reliability, especially in the rail sector where C&D supply into both the Rolling Stock

& Infrastructure areas. Craig and Derricott had a central stand location and exhibited at the show with their partner company Mafelec.

C&D and Mafelec exhibit at Railtex 2011

C&D took this opportunity to launch their new range of LED tubes which have been designed specifically for the rail industry and tested and approved to RIA 12. We also demonstrated our refurbishment capabilities and showcased the M Door illuminated pushbutton range which were all well received. The show was a great success for C&D allowing the company to engage with new and existing customers. *"New rotary switch catalogue has now been launched"*  
the short form catalogue showcases rotary switches in the range 6A-80A with panel or base mounting options. →

## Doing 'our bit' for charity

We would like to congratulate all the employees at C&D that took part in the 10k Aldridge run on Sunday 12th June. The team decided to take the challenge and raise money for our local charity 'Oakwood School'. Despite the bad weather, everyone completed the run and managed to raise over £250 in total.

## 500k order won by the transport team

C&D have been awarded a contract from Tube Lines to supply Relays for use on the Piccadilly Line Trains. The relays will help prolong the life and improve reliability of the rolling stock which consists of 86 trains originally manufactured in 1973. The order worth over £500,000 will be delivered over approximately 1 year and comes on the back of similar orders supplied to both the Bakerloo and District Line Trains.

## New stylish design comes to i-switch

New stylish design comes to the i-switch 20A/25A die cast range. This range provides the user with a product that will withstand a good deal of rough treatment. With sealing to IP65 these products can be placed in environments where resistance to impacts, moisture and dust/dirt are a concern. For more info click the image above to download the catalogue.

'We have just added a 32A variant to the range... keep checking our website for more details'.

## C&D employee leads his team to victory

Staffordshire under 18's won the Midland Youth Football Championships for the first since 1995, by beating Birmingham. Team Manager Nick Adshead from C&D said, my "official" role is Team Administrator this includes looking after all the players, advising them of match arrangements prior to match days, helping select the team and also scouting for players throughout the season. We would like to congratulate Nick for his achievement.
